## This Month's Bright Spot

Our experience with Bright Covers was excellent - from the opening contact with Todd, the salesman, to the man who came out and measured to the installation crew. All were very professional and easy to work with.

The new cover is perfect for us, The translucent cover allows in some light, but keeps out most of the heat. Our patio was not very useful when just sitting out in the hot sun. We sit out there under the Bright Covers roof and it is a joy. **Our only regret is not having done it long ago and had more use for our patio.**
